Deep cycle series SOLAR POWER

General Features

- ◆ Good cyclic property. Enhanced overcharge endurance and overdischarge recovery property
- ◆ High purity raw material: ensure low self discharge rate
- ◆ Using oxygen recombination technology: maintenance-free
- ◆ Lower acid density, excess of electrolyte and larger distance between plates to keep battery at low temperature and slow down plate grid corrosion speed
- ◆ ABS material: increase the strength of battery container. (Flame-retardant ABS is optional)
- ◆ Unique plate group configuration, high quality AGM separator and battery management system ensure battery with a longer service life
- ◆ Special vent valve design: control water losing, prevent air and spark going inside
